HOW TO APPLY

To apply to take part, please visit **www.stagenation.co.uk** where you will find the application form and link to upload your video.

APPLY AT
WWW.STAGENATION.CO.UK

Please complete the application form with details of the piece you are intending to put forward to feature in the production.

However the video does not have to feature the same piece that you are intending to put forward to feature in the production - it can simply be something you're currently working on that demonstrates your unique style and ability.

The music can be different and the dancers do not have to be in costume; at this stage we just want to get a clear sense of your movement quality, performance level and individual style so we can aim to place you appropriately within the show. However, if you do have your actual piece ready to go, then that gives us an even better idea to help us put together a varied programme.

If your application is successful, you will receive an information pack containing all the details you need to know for taking part and preparing your piece for the show. We will also provide you with a show pack for you to pass on to the parents of your students.

The deadline for submitting your application is **27 February 2026**.

We aim to let you know the outcome no later than 14 days after your application.

WHAT HAPPENS NEXT

Throughout Spring 2026, we will be reaching out to participating schools to see how they are getting on with preparing their piece for the production. If schools need further support, we can assist with creative direction and choreography guidance to help bring their ideas to life.

We may also request video material or other assets. This will help us create a creative introduction to each group, get a sense of how rehearsals are progressing and capture some behind-the-scenes photography and video content for social media to help build excitement for the show.
